EXPERIENCE

MOLOCO

AI-Driven Mobile Programmatic Ads Company - \$2Bn Valuation

Seattle, WA
2026 - Present

Product Manager - Age Appropriate Experiences - Intern

- Led policy, UX, and LLM frameworks for age-appropriate ad targeting across AMER/EMEA, building predictive risk models to flag minor-unsafe apps and unlocking \$60M in market opportunity.

BICYCLE AI

Series A Startup - AI operational insights & analytics platform - \$25Mn Valuation

Hyderabad, India
2024 - 2025

Senior Program Manager - Customer Growth

- Converted proof-of-concept integrations (Kafka, Snowflake) into \$100K+ contracts driving 10% ARR growth by tailoring Python analytics and OpenAI API prompts to deliver automated, client-specific business insights.
- Led \$400K TCV (~40% ARR) customer deployment by collaborating across Bicycle (Data and Front-End Engineers) and client teams (Data Engineers), integrating Shopify, Kafka, Snowflake, and GCS into live production workflows.
- Established project management framework for 5-member team, improving implementation timelines and customer adoption while accelerating proof-of-concepts to contract conversion.

CAY

eCommerce marketing suite startup

Bengaluru, India
2023 - 2024

Chief Product Officer & Co-Founder (2023 - 2024)

- Drove full product lifecycle from 0-1, designing prototypes informed by 50+ customer interviews, collaborating with CTO on UI/UX implementation to address eCommerce collaboration pain points and validate product-market fit.
- Designed cross-promotion plugin on Shopify enabling 25+ D2C brands (incl. Shark Tank startups) across 2,000+ daily orders to acquire customers at 11% CTR-50% higher than Meta/Google ads.
- Developed and tested customer similarity - collaborative filtering algorithms through user behavior modelling, increasing ROAS by 60% and reducing CPA by 20% across Meta and Google campaigns.

POSTMAN

Unicorn Startup focused on API development and testing tool. \$5.6Bn Valuation.

Bengaluru, India

Associate Program Manager (2021 - 2023)

- Proposed data-driven pricing transformation from flat enterprise licenses to feature-based add-ons through cross-functional alignment with Sales, Product, and Revenue Operations leadership, generating \$10M+ revenue increase.
- Delivered flexible licensing architecture with billing engineering and legal teams, replacing contract-based changes with self-service license management and capturing \$5M+ additional revenue from 50+ enterprise customers.
- Built ML churn prediction model on SQL (80%+ accuracy), preventing \$2M+ ARR loss by proactive interventions.

DELOITTE

Cloud Strategy Team - consulted customers on moving from servers to cloud

Bengaluru, India
2019 - 2021

Consultant / Analyst (2019 - 2021)

- Scoped a \$3M AWS migration (1,000+ servers) for a US FinTech client and led 50+ enterprise app migrations for a US Bank, earning 6 awards.
